DEQ's thoughts on SW Calc method.doc Example Calculation Methods.xls

OK folks, here's our two cents. We hope this helps
us draw this effort
to a close sooner rather than later.
See the two attachments.

Karen and Mike

Subject

Stormwater

Conc. Weighting

Methods Memo

Stormwater Technical Team -

Attached is a memorandum describing the proposed methods for achieving the stormwater concentration weighting discussed at the last team call. I propose that folks review this and provide informal email comments if you see any major issues. We can then decide collectively if we need a conference call to discuss.

Thanks much.

Carl
